

ANKAHOIST

Model / SC 320 GZ

Frequency controlled Personnel & Material hoist TECHNICAL DATA per single car

Max Load Capacity.....	7040 lbs	Power required.....	130 kVA
Max Passengers.....	32 per car	Motors.....	3 x 30 kW
Car Speed.....	206 ft / min	Car internal width & length.....	4.9 x 12.5 ft
Max height with std. mast.....	990 ft	Car internal height.....	8.2 ft
Max Tie-ins distance.....	29 ft	Car door width & height.....	4.9 x 6.6 ft
Min.Tie-ins distance.....	19 ft	Car C-side gate width (optional)	8.2 ft
Frequency drive.....	110 kW	Access door width & length.....	3.44 x 2.5 ft
Power Supply.....	480 V 60Hz	Erection speed.....	65 ft
Start up current.....	168 Amps	Erection load.....	2200 lbs

*Single or Twin Car optional

** ANKA Motors, Nord Motors

*** 480 V phase –phase 277 V each phase to ground with 120° phase shift between phases. 3-phases, 60Hz power supply plus ground wire.

**** When power supply is a temporary generator please contact ANKAhoist for detailed information ,

Car weight.....	4740 lbs	Mast section (1) rack ,8mm.....	370 lbs
Motor pack.....	2315 lbs	Mast section (2) rack ,8mm.....	425 lbs
Counter weight.....	n/a lbs	Mast section dimension.....	Φ2.13 x 2.95 x 4.95 ft
Base enclosure weight.....	2601 lbs		

The Man and Material Lifts are constructed solid, durable and provide stability and reliability. ANKA elevator has a perfect performance record. low noise, high speed efficiency and economical use. The new generation of frequency inverter with special design software to provide a stable transfer by regulating the acceleration / deceleration, which reduces the need for maintenance on equipment, and extends the life time of the system. The safety over-speed device and over-load features make the system reliable and even more safer.

****Refer to manufacture manual for installation, operation, repairing, jumping and/or dismantling.
