

# ANKAHOIST

## Model / SC200H Material Hoist TECHNICAL DATA

Max Load Capacity.....	4400 lbs	Motors.....	2 x 11 kW
Car Speed.....	75.5ft/min	Car internal width & length.....	4.9ft x 7.2ft
Max height with std. mast.....	495 ft	Side plate height.....	3.9ft
Max Tie-ins distance.....	29 ft	Car door width & height.....	4.2ft*3.9ft
Min.Tie-ins distance.....	19 ft	Access door width & length.....	n/a
Power Supply.....	480 V 60Hz	Erection speed.....	35 ft/ min
Full load current.....	41 Amps	Erection load.....	2200 lbs
Power required.....	32 kVA		

\* ANKA Motors

\*\*480 V phase –phase 277 V each phase to ground with 120° phase shift between phases. 3-phases, 60Hz power supply plus ground wire.

\*\*\*When power supply is a temporary generator please contact ANKAhoist for detailed information ,

Hoist cage weight.....	1764 lbs	Mast section (1) rack ,8mm.....	353 lbs
Motor pack.....	981 lbs	Mast section dimension.....	Φ2.13 x 2.13 x 4.95 ft

The Material Lifts are constructed solid, durable and provide stability and reliability. ANKA hoist has a perfect performance record. low noise, speed efficiency and economical use. The Operator stands on the ground, operating and monitor the ascending and descending hoist with a stand alone control panel. The safety over-speed device and over-load features make the system reliable and even more safer.

\*\*\*\*Refer to manufacture manual for installation, operation, repairing, jumping and/or dismantling.
